## **Graduate Student Goals and Activities For SIL 2007**

Summary of the goals for the graduate student meeting at SIL: highlight RCN opportunities, recruit students and plan for future activities, and identify student needs. With these aims in mind, the agenda list for the SIL student meeting could be:

1. getting students informed and excited about GLEON/RCN
2. recruiting students for the Jan meeting
3. beginning a relationship with NSF
4. introducing the existing RCN student framework; and brainstorm ideas for the future
5. Get students signed up for committees-
  - a. a) representatives for each of the working groups,
  - b. b) developing the system for how student grants to other GLEON sites will be administered and chosen,
  - c. c) initiate planning for the student-driven workshops
6. 6) Identify how the RCN/GLEON can serve student needs.
